### Concept Map 2.1: Atoms, Ions and Molecules

The diagram shows information about Ions. Fill in the shapes using the words written in the word bank.

Terms					
oxygen (O <sub>2</sub> )	covalent bonds	ionic bonds	compounds	molecules	ions
hydrogen (H <sub>2</sub> )	ionic compounds	elements	water (H <sub>2</sub> O)	shared electrons	simpler substance
$\text{Na}^+ + \text{Cl}^- = \text{NaCl}$
