## Linnaean Classification System

Fill in the name of each missing taxonomic category in the chart below.

Answer each question briefly.

1. Why is it confusing to refer to organisms by their common names?
2. What is binomial nomenclature?
3. What genus does the grizzly bear, *Ursus arctos*, belong to?
4. What is the correct way to write scientific names in the binomial nomenclature system?
5. The largest taxonomic category in the Linnaean system of classification is the \_\_\_\_\_, while the smallest is the \_\_\_\_\_.
6. Similar classes are grouped into a(n) \_\_\_\_\_, and similar orders are grouped into a(n) \_\_\_\_\_.
